

The following list are the approved rules for the 2023 DHD HOG photo challenge:

1. All State parks, recreation areas, and historical parks/sites are approved if the sign shows the State designation. The member's bike & sign are required for the photo. All 50 US State photos are eligible for photo submission.
2. All National parks, recreation areas, and historical parks/sites are approved if the sign shows the National designation. The member's bike & sign are required for the photo. Only US National site photos are eligible for photo submission.
3. Any member who rents a bike and rides to a US State or National Park, recreation area, or historical park/site as designated by the sign posted will be eligible to submit a photo. Since the bike is rented, the member must be in the photo along with the bike and sign to be valid.
4. Only US State or National photos are eligible for photo submission.
5. Group photos are valid if the accompanying email clearly states each member's name and location.
6. For each emailed entry, you must include your full name and location of the photo. This is required for the entry to be valid. Location requires the name of the park & state where the photo was taken. For group photos each person in the group photo will be accepted as a separate entry (without requiring a separate submitted email).
7. Multiple location photos can be submitted at the same time if the name and location of each photo are noted in the email.
8. All entries must be submitted to: photographer@dhdhog.com no later than December 1st, 2023 by 10:00pm. Entries received after the deadline will not be valid.
